

# Anti-Nuclear cap-binding protein subunit 1 antibody

Catalog: PHY1335S

## Product Information

<b>Description:</b>	Rabbit polyclonal antibody
<b>Background:</b>	NCBP1 is a nuclear cap-binding protein that forms a heterodimeric complex with CBP20 (AT5G44200) and is involved in ABA signaling and flowering. It does not bind directly capped RNAs (m7GpppG-capped RNA) but is required to stabilize the movement of the N-terminal loop of CBP20 and lock the CBC into a high affinity cap-binding state with the cap structure.
<b>Synonyms:</b>	NCBP1, ABA HYPERSENSITIVE 1, ABH1, ATCBP80, CAP-BINDING PROTEIN 80, CBP80, ENS, ENSALADA
<b>Immunogen:</b>	KLH-conjugated synthetic peptide of NCBP1 derived from <i>Arabidopsis thaliana</i> AT2G13540.
<b>Form:</b>	Lyophilized
<b>Quantity:</b>	150 µg
<b>Purification:</b>	Serum Peptide affinity form antibody available upon request at <a href="mailto:info@phytoab.com">info@phytoab.com</a> .
<b>Reconstitution:</b>	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
<b>Stability &amp; Storage:</b>	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
<b>Shipping:</b>	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

## Application Information

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
<b>Expected/apparent MW:</b>	97 kDa

Research Use Only

**Confirmed Reactivity:**

Coming soon

**Predicted Reactivity:**
