

## Anti-Alpha subunit of chloroplast ATP synthase antibody

Catalog: PHY0311

## **Product Information**

| Description:    | Rabbit polyclonal antibody   |  |
|-----------------|--|--|
| Background:     | ATPA is ATPase alpha subunit, which is a subunit of ATP synthase and part of                   |  |
|                 | the CF1 portion which catalyzes the conversion of ADP to ATP using the proton                  |  |
|                 | motive force. This complex is located in the thylakoid membrane of the                         |  |
|                 | chloroplast.   |  |
| Synonyms:       | ATPA, ATP SYNTHASE SUBUNIT ALPHA   |  |
| Immunogen:      | Recombinant protein (1-507 aa) derived from Arabidopsis thaliana ATPA                          |  |
|                 | (ATCG00120).   |  |
| Form:           | Lyophilized  |  |
| Quantity:       | 150 µg   |  |
| Purification:   | Protein A purified   |  |
| Reconstitution: | Reconstitution with 150 $\mu$ l of sterile 1 $\times$ PBS (PH=7.4).                            |  |
|                 | "Note: please spin tube briefly prior to opening it to avoid any losses that might             |  |
|                 | occur from lyophilized material adhering to the cap or sides of the tube".                     |  |
| Stability &     | Use a manual defrost freezer and avoid repeated freeze-thaw cycles.                            |  |
| Storage:        | 12 months from date of receipt, -20 to -70 $^\circ \!\! \mathbb{C}$ as supplied.               |  |
|                 | 6 months, -20 to -70 $^\circ\!\!\!\!^\circ$ under sterile conditions after reconstitution.     |  |
|                 | 1 month, 2 to 8 $^\circ$ C under sterile conditions after reconstitution.                      |  |
| Shipping:       | The product is shipped at 4 $^\circ\!\!\mathbb{C}$ . Upon receipt, store it immediately at the |  |
|                 | temperature recommended above.   |  |

## **Application Information**

| <b>Recommended Dilution:</b> | Western Blot (1:1000-1:5000)                                       |
|------------------------------|--|
|                              | Note: Optimal dilutions/concentrations should be determined by the |
|                              | end user.  |
| Expected / apparent MW:      | 55 / 59 kDa  |
| Confirmed Reactivity:        | Arabidopsis thaliana   |
| Predicted Reactivity:        | For more species homologues information, please contact tech       |

## **Application Example**

Thy: thylakoid membrane protein from *Arabidopsis thaliana* containing 0.1 μg, 0.25 μg, and 0.5 μg of chlorophyll, respectively. **Electrophoresis:** 15% SDS-Urea-PAGE **Transfer:** blotting to NC (nitrocellulose) membrane for 1 h. **Blocking:** 5% skim milk at RT or 4°C for 1 h. **Primary antibody:** 1:5000 dilution overnight at 4°C. **Secondary antibody:** 1:20000 dilution using Goat Anti-Rabbit IgG H&L(HRP)

(Cat# PHY6000).

Detection: using chemiluminescence substrate and image were

captured with CCD camera.
