

Anti-OsPAIR2 antibody

Catalog: PHY4610S

Product Information

Description:	Rabbit polyclonal antibody
Background:	OsPAIR2 is a rice meiotic coiled-coil protein essential for homologous chromosome pairing and synapsis. Its mutation leads to complete sterility due to defective chromosome synapsis and crossover formation.
Synonyms:	PAIR2, Pair2, OsPAIR2, OsASY1
Immunogen:	KLH-conjugated synthetic peptide (17 aa from C-terminal section) derived from <i>Oryza sativa</i> OsPAIR2 (Os09g0506800).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum Peptide affinity form antibody available upon request at info@phytoab.com .
Reconstitution:	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability & Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	69 kDa
Predicted Reactivity:	Among species analyzed, the sequence of the synthetic peptide used for immunization is 88% homologues with the sequence in <i>Sorghum bicolor</i> .

Research Use Only
