

Anti-CHLM antibody

Catalog: PHY2837A

Product Information

Description:	Rabbit polyclonal antibody
Background:	CHLM is a chloroplast enzyme that methylates magnesium protoporphyrin IX, a key step in chlorophyll biosynthesis. Loss of its function impairs chlorophyll production and the accumulation of major photosynthetic complexes in the thylakoid membrane.
Synonyms:	CHLM, MAGNESIUM-PROTOPORPHYRIN IX METHYLTRANSFERASE
Immunogen:	KLH-conjugated synthetic peptide (18 aa from C-terminal section) derived from <i>Arabidopsis thaliana</i> CHLM (AT4G25080).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Immunogen affinity purified
Reconstitution:	Reconstitution with 150 µl of sterile 1XPBS (PH=7.4) containing 30% glycerol. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability &	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
Storage:	12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

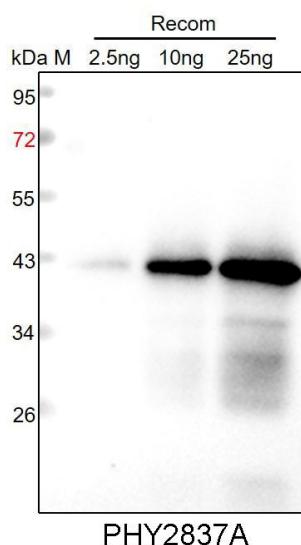

Recommended Dilution:	Western Blot (1:1000-1:2000)
	Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	36 kDa
Predicted Reactivity:	Among species analyzed, the sequence of the synthetic peptide used for immunization is 100% homologues with the sequence in <i>Brassica napus</i> , <i>Physcomitrium patens</i> , <i>Brassica rapa</i> , <i>Solanum tuberosum</i> ,

Research Use Only

Solanum lycopersicum, *Gossypium raimondii*, *Chlamydomonas reinhardtii*, *Spinacia oleracea*, *Nicotiana tabacum*, and 94% homologues with the sequence in *Glycine max*, *Vitis vinifera*, *Panicum virgatum*, *Sorghum bicolor*, *Triticum aestivum*, *Setaria viridis*, *Oryza sativa*, *Zea mays*, *Medicago truncatula*, *Populus trichocarpa*, *Cucumis sativus*.

For more species homologues information, please contact tech support at tech@phytoab.com.

Application Example

Electrophoresis: 12% SDS-PAGE

Transfer: blotting to NC (nitrocellulose) membrane for 1 h.

Blocking: 5% skim milk at RT or 4°C for 1 h.

Primary antibody: 1:1000 dilution overnight at 4°C.

Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

Detection: using chemiluminescence substrate and image were captured with CCD camera.

Research Use Only
