

# Anti- $\gamma$ -tubulin1/2 antibody

Catalog: PHY0901A

## Product Information

<b>Description:</b>	Rabbit polyclonal antibody
<b>Background:</b>	$\gamma$ -tubulin1/2 are core components of the $\gamma$ -tubulin ring complex ( $\gamma$ -TuRC). They are essential for nucleating microtubules from both centrosomal and non-centrosomal sites, which is critical for cell division, cell shape determination, and stomatal patterning.
<b>Synonyms:</b>	TUBG1, GAMMA-TUBULIN, GCP2, TUBG2
<b>Immunogen:</b>	KLH-conjugated synthetic peptide (16 aa from C terminal section) derived from <i>Arabidopsis thaliana</i> $\gamma$ -tubulin1/2 (AT3G61650; AT5G05620).
<b>Form:</b>	Lyophilized
<b>Quantity:</b>	150 $\mu$ g
<b>Purification:</b>	Immunogen affinity purified
<b>Reconstitution:</b>	Reconstitution with 150 $\mu$ l of sterile 1XPBS (PH=7.4) containing 30% glycerol. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
<b>Stability &amp; Storage:</b>	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
<b>Shipping:</b>	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

## Application Information

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
<b>Expected / apparent MW:</b>	53 kDa
<b>Predicted Reactivity:</b>	Among species analyzed, the sequence of the synthetic peptide used for immunization is 100% homologues with the sequence in <i>Zea mays</i> , <i>Brassica napus</i> , <i>Vitis vinifera</i> , <i>Nicotiana tabacum</i> , <i>Populus</i>

Research Use Only

*trichocarpa, Solanum lycopersicum, Spinacia oleracea, Glycine max, Gossypium raimondii, Cucumis sativus, Medicago truncatula, Spinacia oleracea, Brassica rapa, Sorghum bicolor*, 80-99% homologues with the sequence in *Oryza sativa, Hordeum vulgare, Triticum aestivum, Panicum virgatum, Physcomitrium patens*.

For more species homologues information, please contact tech support at [tech@phytoab.com](mailto:tech@phytoab.com).

### Application Example

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 46 kDa.

**Electrophoresis:** 12% SDS-PAGE

**Transfer:** blotting to NC (nitrocellulose) membrane for 1 h.

**Blocking:** 5% skim milk at RT or 4°C for 1 h.

**Primary antibody:** 1:1000 dilution overnight at 4°C.

**Secondary antibody:** 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

**Detection:** using chemiluminescence substrate and image were captured with CCD camera.
