

Anti-OsATG8A/B/C antibody

Catalog: PHY4723S

Product Information

Description:	Rabbit polyclonal antibody
Background:	ATG8A/B/C are ubiquitin-like proteins essential for autophagosome formation and cargo recruitment. They conjugate with phosphatidylethanolamine (PE) to anchor on autophagosomal membranes, facilitating membrane expansion, substrate recognition (via LIR motifs), and selective degradation of damaged organelles/pathogens. ATG8 isoforms also regulate autophagosome-lysosome fusion and modulate stress responses (e.g., ER/mitochondrial quality control).
Synonyms:	ATG8A/B/C, OsATG8a/b/c
Immunogen:	KLH-conjugated synthetic peptide (16 aa from C terminal section but not the cleavage region of ATG4) derived from Oryza sativa ATG8A (Os07g0512200), ATG8B (Os04g0624000) and ATG8C (Os08g0191600).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum Peptide affinity form antibody available upon request at info@phytoab.com .
Reconstitution:	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability & Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
------------------------------	--

Research Use Only

Expected / apparent MW: 14 kDa

Predicted Reactivity: Among species analyzed, the sequence of the synthetic peptide used for immunization is 100% homologues with the sequence in *Zea mays*, *Hordeum vulgare*, *Gossypium raimondii*, *Vitis vinifera*, *Glycine max*, *Arabidopsis thaliana*, *Solanum tuberosum*, *Nicotiana tabacum*, *Solanum lycopersicum*, *Populus trichocarpa*, *Brassica rapa*, *Brassica napus*, *Setaria viridis*, *Medicago truncatula*, *Panicum virgatum*, *Cucumis sativus*, *Spinacia oleracea*, *Sorghum bicolor*, *Triticum aestivum*.

For more species homologues information, please contact tech support at tech@phytoab.com.

Application Example

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 40 kDa.

Electrophoresis: 12% SDS-PAGE

Transfer: blotting to NC (nitrocellulose) membrane for 1 h.

Blocking: 5% skim milk at RT or 4°C for 1 h.

Primary antibody: 1:1000 dilution overnight at 4°C.

Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

Detection: using chemiluminescence substrate and image were captured with CCD camera.
