

Anti-Homeobox protein SHOOT MERISTEMLESS antibody

Catalog: PHY3431A

Product Information

| | |
|---------------------------------|---|
| Description: | Rabbit polyclonal antibody |
| Background: | Class I knotted-like homeodomain protein that is required for shoot apical meristem (SAM) formation during embryogenesis and for SAM function throughout the lifetime of the plant. Functions by preventing incorporation of cells in the meristem center into differentiating organ primordia. It has also been shown to have a role in the specification of flower meristem identity. |
| Synonyms: | STM, BUM, BUM1, BUMBERSHOOT, BUMBERSHOOT 1, SHL, SHOOT MERISTEMLESS, SHOOTLESS, WALDMEISTER, WALDMEISTER 1, WAM, WAM1 |
| Immunogen: | KLH-conjugated synthetic peptide (15 aa from Central section) derived from <i>Arabidopsis thaliana</i> STM (AT1G62360). |
| Form: | Lyophilized |
| Quantity: | 150 µg |
| Purification: | Immunogen affinity purified |
| Reconstitution: | Reconstitution with 150 µl of 0.01 M sterile PBS. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube". |
| Stability & Storage: | Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution. |
| Shipping: | The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above. |

Application Information

| | |
|--------------------------------|--|
| Recommended Dilution: | Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user. |
| Expected / apparent MW: | 43 kDa |

Research Use Only

Confirmed Reactivity:
