

# Anti-Extra-large guanine nucleotide-binding protein 2 antibody

Catalog: PHY1040A

## Product Information

<b>Description:</b>	Rabbit polyclonal antibody
<b>Background:</b>	Heterotrimeric GTP-binding proteins containing Ga, Gb, and Gg subunits play important roles in transducing extracellular signals perceived by cell surface receptors into intracellular physiological responses. Arabidopsis has a single prototypical Ga protein (GPA1, AT2G26300) and three unique Ga-like proteins, known as XLG1 (AT2G23460), XLG2 (AT4G34390), and XLG3 (AT1G31930), that have been found to be localized in nuclei.
<b>Synonyms:</b>	XLG2, EXTRA-LARGE GTP-BINDING PROTEIN 2
<b>Immunogen:</b>	KLH-conjugated synthetic peptide (14 aa from N terminal section) derived from <i>Arabidopsis thaliana</i> XLG2 (AT4G34390).
<b>Form:</b>	Lyophilized
<b>Quantity:</b>	150 µg
<b>Purification:</b>	Immunogen affinity purified
<b>Reconstitution:</b>	Reconstitution with 150 µl of 0.01 M sterile PBS. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
<b>Stability &amp; Storage:</b>	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
<b>Shipping:</b>	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

## Application Information

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
<b>Expected / apparent MW:</b>	97 kDa

Research Use Only

**Confirmed Reactivity:**

Coming soon

**Predicted Reactivity:**
