

Anti-Synaptotagmin A antibody

Catalog: PHY0820S

Product Information

Description:	Rabbit polyclonal antibody
Background:	Synaptotagmin A (SYT1) is an endoplasmic reticulum and plasma membrane localized protein with similarity to synaptotagmins, it is a class of membrane trafficking proteins. SYT1 is expressed in all tissues. SYT1 may have a role in membrane repair such as membrane resealing after freezing induced damage.
