

# Anti-U-box domain-containing protein 11 antibody

Catalog: PHY3756S

## Product Information

<b>Description:</b>	Rabbit polyclonal antibody
<b>Background:</b>	PUB11 is a plant U-Box protein that is capable of binding and ubiquitinating a variety of targets including MYC2, LRR1, KIN and acting as an E3 ligase. Regulates a number of physiological hormonal and environmental responses via selective degradation of targets. Unlike PUB10, its closest homolog in <i>Arabidopsis</i> , it does not appear to play a major role in the MeJA-mediated response.
<b>Synonyms:</b>	PUB11, PLANT U-BOX PROTEIN 11
<b>Immunogen:</b>	KLH-conjugated synthetic peptide (15 aa from Central section) derived from <i>Arabidopsis thaliana</i> PUB11 (AT1G23030).
<b>Form:</b>	Lyophilized
<b>Quantity:</b>	150 µg
<b>Purification:</b>	Serum Peptide affinity form antibody available upon request at <a href="mailto:info@phytoab.com">info@phytoab.com</a> .
<b>Reconstitution:</b>	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
<b>Stability &amp; Storage:</b>	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
<b>Shipping:</b>	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

## Application Information

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the
