

Anti-PYK10-binding protein 2 antibody

Catalog: PHY0994S

Product Information

Description:	Rabbit polyclonal antibody
Background:	PBPII is a protein that increases the beta-glucosidase activities of three scopolin glucosidases in vitro. PBPII is polymerizer-type lectin that may facilitate the correct polymerization of BGLU23/PYK10 upon tissue damage.
Synonyms:	PBPII, JACALIN-RELATED LECTIN 31, JAL31
Immunogen:	KLH-conjugated synthetic peptide (21 aa from N terminal section) derived from <i>Arabidopsis thaliana</i> PBPII (AT3G16430).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum Peptide affinity form antibody available upon request at info@phytoab.com .
Reconstitution:	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability & Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	32 kDa
Confirmed Reactivity:	Coming soon
Predicted Reactivity:	For more species homologues information, please contact tech support at tech@phytoab.com .
