

## Anti-H protein of glycine decarboxylase complex antibody

Catalog: PHY0655S

## **Product Information**

Description:	Rabbit polyclonal antibody
Background:	The glycine decarboxylase (GDC) or glycine cleavage system catalyzes the
	degradation of glycine. The H protein shuttles the methylamine group of glycine
	from the P protein to the T protein.
Synonyms:	GDC-H, H-Protein of the Glycine Decarboxylase Multienzyme Complex
Immunogen:	KLH-conjugated synthetic peptide (15 aa from C terminal section) derived from
	Arabidopsis thaliana GDC-H (AT2G35370).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum
	Peptide affinity form antibody available upon request at <u>info@phytoab.com</u> .
<b>Reconstitution:</b>	Reconstitution with 150 µl of sterile water.
	"Note: please spin tube briefly prior to opening it to avoid any losses that might
	occur from lyophilized material adhering to the cap or sides of the tube".
Stability &	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
Storage:	12 months from date of receipt, -20 to -70 $^\circ \!\! \mathbb{C}$ as supplied.
	6 months, -20 to -70 $^\circ$ C under sterile conditions after reconstitution.
	1 month, 2 to 8 $^\circ$ C under sterile conditions after reconstitution.
Shipping:	The product is shipped at $4^{\circ}$ C. Upon receipt, store it immediately at the
	temperature recommended above.

## **Application Information**

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:5000)
	Note: Optimal dilutions/concentrations should be determined by the
	end user.
Expected / apparent MW:	18 / 15 kDa
Confirmed Reactivity:	Arabidopsis thaliana
Predicted Reactivity:	Among species analyzed, the sequence of the synthetic peptide used

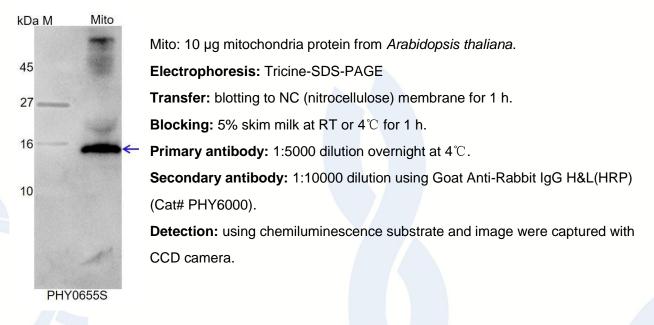

Research Use Only

for immunization is 100% homologues with the sequence in *Vitis vinifera*, and 80-99% homologues with the sequence in *Brassica rapa*, *Brassica napus*, *Oryza sativa*, *Triticum aestivum*, *Setaria viridis*, *Solanum lycopersicum*, *Solanum tuberosum*, *Glycine max*, *Panicum virgatum*, *Cucumis sativus*, *Sorghum bicolor*, *Hordeum vulgare*, *Zea mays*, *Nicotiana tabacum*, *Medicago truncatula*, *Spinacia oleracea*, *Gossypium raimondii*.

For more species homologues information, please contact tech support at <u>tech@phytoab.com</u>.

## **Application Example**
