

# Anti-Transketolase-1, chloroplastic, C-terminal antibody

Catalog: PHY7213S

## Product Information

<b>Description:</b>	Rabbit polyclonal antibody
<b>Background:</b>	TKL1 (transketolase) is an essential enzyme of both the Calvin-Benson-Bassham cycle and the oxidative pentose phosphate pathway. It acts as a stress sensor involved in adaptation process.
<b>Synonyms:</b>	TKL1, ATTKL1, TRANSKETOLASE 1
<b>Immunogen:</b>	KLH-conjugated synthetic peptide (14 aa from C terminal section) derived from <i>Arabidopsis thaliana</i> TKL1 (AT3G60750).
<b>Form:</b>	Lyophilized
<b>Quantity:</b>	150 µg
<b>Purification:</b>	Serum Peptide affinity form antibody available upon request at <a href="mailto:info@phytoab.com">info@phytoab.com</a> .
<b>Reconstitution:</b>	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
<b>Stability &amp; Storage:</b>	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
<b>Shipping:</b>	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

## Application Information

<b>Recommended Dilution:</b>	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
<b>Expected / apparent MW:</b>	80 kDa
<b>Predicted Reactivity:</b>	Among species analyzed, the sequence of the synthetic peptide used for immunization is 100% homologous with the sequence in <i>Glycine</i>

Research Use Only

*max*, *Triticum aestivum*, *Hordeum vulgare* subsp. *vulgare*, *Sorghum bicolor*, *Zea mays*, and 80-99% homologues with the sequence in *Setaria viridis*, *Panicum virgatum*, *Brassica napus*, *Brassica rapa*, *Medicago truncatula*, *Gossypium raimondii*, *Populus trichocarpa*, *Solanum lycopersicum*, *Solanum tuberosum*, *Oryza sativa*, *Synechococcus elongatus* PCC 7942, *Cucumis sativus*.

The sequence of the synthetic peptide used for immunization is 93% (14/15) homologues with the sequence in TKL2 (AT2G45290).

For more species homologues information, please contact tech support at [tech@phytoab.com](mailto:tech@phytoab.com).

## Application Example

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 50 kDa.

**Electrophoresis:** 12% SDS-PAGE

**Transfer:** blotting to NC (nitrocellulose) membrane for 1 h.

**Blocking:** 5% skim milk at RT or 4°C for 1 h.

**Primary antibody:** 1:1000 dilution overnight at 4°C.

**Secondary antibody:** 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

**Detection:** using chemiluminescence substrate and image were captured with CCD camera.
