

## Anti-Cycloartenol-C-24-methyltransferase antibody

Catalog: PHY2153A

## **Product Information**

Description:	Rabbit polyclonal antibody	
Background:	Sterol methyltransferase (SMT), the enzyme from Saccharomyces cerevisiae	
	that catalyzes the conversion of sterol acceptor in the presence of AdoMet to	
	C-24 methylated sterol and AdoHcy. Arabidopsis contains three SMT—sterol	
	methyltransferase 1 (SMT1, AT5G13710), SMT2 (AT1G20330), and SMT3	
	(AT1G76090).	
Synonyms:	SMT1, CEPHALOPOD, CPH, STEROL METHYLTRANSFERASE 1	
Immunogen:	KLH-conjugated synthetic peptide (16 aa from C terminal section) derived from	
	Arabidopsis thaliana SMT1 (AT5G13710).	
Form:	Lyophilized	
Quantity:	150 µg	
Purification:	Immunogen affinity purified	
<b>Reconstitution:</b>	Reconstitution with 150 µl of 0.01 M sterile PBS.	
	"Note: please spin tube briefly prior to opening it to avoid any losses that might	
	occur from lyophilized material adhering to the cap or sides of the tube".	
Stability &	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.	
Storage:	12 months from date of receipt, -20 to -70 $^\circ \!\! \mathbb C$ as supplied.	
	6 months, -20 to -70 $^\circ\!\!\!\!\!^\circ$ under sterile conditions after reconstitution.	
	1 month, 2 to 8 $^\circ C$ under sterile conditions after reconstitution.	
Shipping:	The product is shipped at 4 $^\circ\!{ m C}$ . Upon receipt, store it immediately at the	
	temperature recommended above.	

## **Application Information**

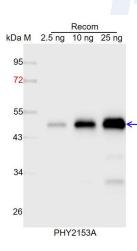

Recommended Dilution:	Western Blot (1:1000-1:2000)
	Note: Optimal dilutions/concentrations should be determined by the
	end user.
Expected/apparent MW:	38 kDa
Predicted Reactivity:	Among species analyzed, the sequence of the synthetic peptide used
	for immunization is 80-99% homologues with the sequence in
	Brassica rapa, Brassica napus, Vitis vinifera, Cucumis sativus.

**Research Use Only** 

For more species homologues information, please contact tech support at <u>tech@phytoab.com</u>.

## **Application Example**

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 48 kDa. Electrophoresis: 12% SDS-PAGE Transfer: blotting to NC (nitrocellulose) membrane for 1 h. Blocking: 5% skim milk at RT or 4°C for 1 h. Primary antibody: 1:1000 dilution overnight at 4°C. Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

**Detection:** using chemiluminescence substrate and image were captured with CCD camera.

**Research Use Only**
